

Supplier Shipping Instructions

For FOB ORIGIN Purchase Orders

Effective Date: 02/28/2025, superseding all prior versions

These instructions are valid only for General Dynamics Ordnance and Tactical Systems (GD-OTS) purchase orders & subcontracts issued from the Marion, IL location. These instructions must be followed for all material purchased with delivery terms of FOB Origin (EXW/FCA Incoterms® 2010). Purchase Orders (PO) that are FOB Destination (DAP/DDP Incoterms® 2010) must be shipped at supplier expense. All shipments must be properly packed, marked, labeled, and routed in accordance with the PO and these instructions. **All Shipping Documents must reference the Purchase Order number.**

Seller shall provide with each shipment, packing list(s) with the Buyer's Name, purchase order number, specific purchase order line, GD Part number, part description, revision level, lot number and total quantity. Once shipped, please promptly forward the bill of lading signed by the Carrier to mlogistics@gd-ots.com.

Regarding packaging, each container (i.e. box, can, etc.) **MUST** be legibly marked with the following information on at least one side: (1) PO number (2) Government contract number if applicable (3) General Dynamics part number (4) Part Description (5) Lot number (6) total quantity and (7) Unit of measure. Any partial container **MUST** be clearly identified to stand out from the full containers. Each unit load (pallet or skid) shall have the containers placed so the above information is visible on at least two sides of the unit.

Any expense incurred by Buyer because of improper preservation, packaging, packing, marking, or incorrect method of routing shall be reimbursed by Seller. Multi-pack of various purchase orders into a single carton/pallet destined to the same location is recommended and encouraged. Seller shall furnish the Shipper's Declaration of Dangerous Goods for any hazardous materials when necessary. Seller shall contact the Buyer's Representative with any questions regarding routing instructions.

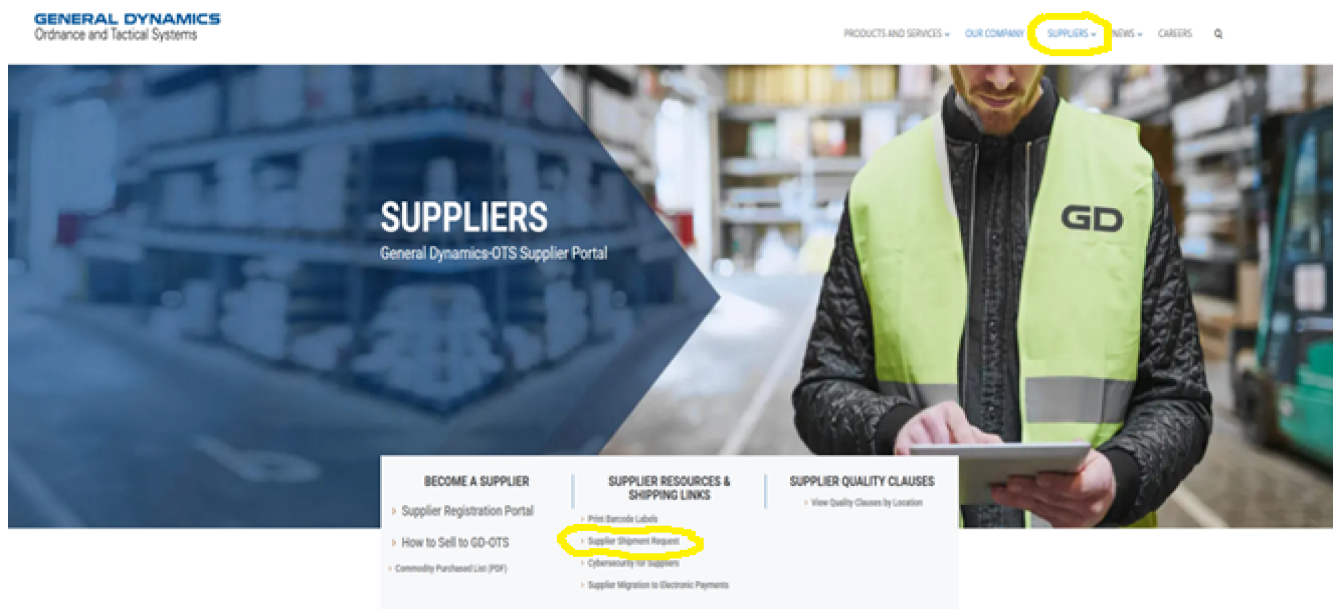

3rd Party Bill to Address:

General Dynamics Ordnance & Tactical Sys Marion/**GEDOTS-MARION** c/o Data2Logistics
PO Box 61050 Ft Myers, FL 33906

Requesting Transportation Support from GD-OTS Marion Logistics (Primarily for LTL, Truckload, or Special Requirements)

To request shipment support online, please visit the General Dynamics OTS website (<https://www.gd-ots.com/>) and select the tab "SUPPLIERS".

From there, you will find an option for completing the online shipment request form. Once you select the "Supplier Shipment Request" you will be routed to the Agistix Portal.

Supplier Shipping Instructions

Additional instructions on how to complete the form can be found within the form itself once the tab opens. This information can be accessed by clicking the button at the top right section of the form titled "Instructions".

For any additional questions or issues, please contact mlogistics@gd-ots.com.

Information regarding Hazmat Shipments

Any energetic material shipments of hazard class Explosive 1.1, 1.2, or 1.3 that are purchased in support of a US Government contract, we require the carriers of these shipments to use the security services of **Dual Driver Protection (DDP), Satellite Motor Surveillance Service (SNS), and Trailer Tracking Service (DCS)**. This can be accomplished by submitting the service requests through the Defense Transportation Tracking System (DTTS). This must be completed at least 24 hours prior to shipment leaving the vendor facility and the carrier must be informed when a truck is scheduled. The services can be selected in the Agistix portal to assist in communicating to the carrier. If there are any questions regarding the use of these services or if you need assistance, please contact our Marion Logistics Team at mlogistics@gd-ots.com.

Additional Information

Suppliers using Small Package or Less than Truckload (LTL) are required to send shipping documents as soon as the shipment is booked (packing list/tracking information) to Mlogistics@gd-ots.com for payment purposes. If the chosen carrier isn't a viable one for your location, please contact our Marion logistics team at mlogistics@gd-ots.com.

Failure to adhere to these routing instructions shall result in the Seller assuming full responsibility for risk or loss of Goods and absolving the Buyer of any liability, claims filing, and freight expense. Transportation invoices received without the information specified above shall be rejected for non-compliance and the Carrier will be instructed to re-bill the shipper for the freight charges.

This routing guide is intended for shipments within and between the United States and Canada only.

Oversea International shipments or any deviation from this routing instruction must be coordinated through the issuing party identified above.
